any type of ledstrip

any type of ledsources

# Step 3. Design your lighting installation for 1 of the 4 windows @ HUB Ilioupolis

**Be creative!**  
For your installation, except for the given luminaires you may also use graphic design!

Each window has already installed luminaires in order to change colors if necessary!

**Dimensions of windows:**  
Height 2.50m,  
Width 2.80m,  
Depth 1.00m

## Step 4.

**CLICK HERE** 

**to submit your proposal**

**by the 4<sup>th</sup> of May, 2025**

# Deliverables

All entries must be submitted using **PDF** file format of a single **A1 LANDSCAPE** poster including :

1. The **logo/ name** of the company that you selected to use (ARKOS LIGHT or DAVIDE GROPPPI or INTRALIGHTING)
2. **Diagrams, drawings, sketches and/or renderings** necessary to better present your idea.
3. **Narrative** to support Design decisions according to the given concept (**maximum 300 words**).
4. All necessary **drawings required for installation** (details, plan, elevations and/or cross sections).

To assure blind review, **submissions must NOT include author's name in the pdf file, institutional affiliation / course or any other forms of identification.**

The **file size must not exceed 80 Mb.**

Submissions that do not satisfy all requirements will be disqualified from review.

# Constraints

1. Only **individual students** may participate
2. Each student may use the products of **only one of the companies:**

ARKOSLIGHT or **davide groppi** or \* intra lighting or timberlab

3. Each student may submit only **1 entry per company**
4. All entries must be submitted by the **4th of May.**

**A. Creativity & Aesthetics (Max 40 points)**
